Welcome to our AUTUMN Newsletter

### In this issue:

- Cooler Classrooms Program
- Goulburn Branch
- Hot start to 2020

Moving into the Autumn months, our staff will be busy rolling-out & commissioning new reverse cycle air conditioners across many NSW rural schools under the State Government's cooler classrooms program. This is fantastic program to benefit students and the greater community.

With the cooler weather not far away, be sure to call and book your annual service, and let our technicians prepare your system ready for winter.  
Call: 1300 366 173

Trimech is your local authorised dealer for :

### NSW Department of Education – School Infrastructure

The Cooler Classrooms Program is a \$500 million, five-year investment by the NSW Government to improve learning environments in public schools across NSW.

#### Snapshot

- \$500 million investment
- Hottest schools automatically eligible
- Smart technology
- More than 900 schools
- Five-year program
- Environmentally and financially sustainable

We are committed to delivering a quality, sustainable and cost effective program to ensure our students enjoy healthy and comfortable learning environments. Here are a few benefits the Cooler Classrooms Program will provide beyond air cooling:

- Year-round comfort**  
Reverse-cycle air conditioning units will cool in the summer and heat in the winter for year-round comfort.
- Fresh air**  
In addition to cooling and heating, the systems will supply fresh air to avoid stuffy environments.
- Improved air quality**  
Teachers and students will be alerted to times when additional fresh air is needed to boost indoor air quality.
- Optimising comfort**  
The systems are fully programmed to provide the optimal environment for any season with the touch of a button.
- Promoting sustainability**  
Renewable energy sources – such as solar – will be installed to limit our environmental impact.
- Promoting awareness**  
Through smart-monitoring, teachers and students can learn how to minimise their energy use.
- Reduced energy usage**  
Air conditioning will automatically shut off after 2 hours.
- Bringing the outside in**  
Monitors notify teachers and students when the weather outside is optimal for opening windows.

## Thank you

Trimech along with their staff and families wish to extend their thanks to the NSW Rural Fire Service (and all other emergency services) for their hard work and dedication to the recent fire events

Trimech and staff have pledged **\$3000** donation to NSW RFS to help with the recovery efforts.

WELCOME to our new staff:

Lauren Jordison our new Finance / Administration Officer and Luke Barker who has commenced his Air Conditioning + Refrigeration apprenticeship at the Young Branch.

Also Nathan Hessel (not pictured) who has also commenced his apprenticeship at the Parkes Branch.

## GOULBURN

We are excited to announce that our 4th branch in GOULBURN will be opening early March 2020.  
Unit 3, 29 Finlay Road, Goulburn NSW 2580

YOUNG, PARKES, GOULBURN, SOUTHERN HIGHLANDS

In November 2019, the Operations & IT staff attended CEBIT in Sydney.

CEBIT is the annual conference and tradeshow promoting new business technologies.

It is exciting to see new developments making their way into the market, and with the ever changing technology environment, who knows what exciting new development they will come up with next.

**We celebrated the end of 2019 in true Trimech style, attending the picturesque Talbingo Golf Club for the annual staff Christmas Party. Great night had by all, with a few sore heads in the morning. Thank you to the businesses in Talbingo (Talbingo Country Club + Chinese restaurant, Talbingo Caravan Park + for your hospitality.**
