- ◆ Giving back to our Aged Care Facilities
- ◆ Working out West NSW

Trimech is your local authorised dealer for :

Its been a difficult few months with the COVID-19 pandemic touching all of us.

As we are considered an essential service, Trimech was fortunate enough to remain open. We would like to thank our Staff and Customers for their support and for adhering to the restrictions during this time. Trimech have been proud to offer our support to local business in our service areas (Parkes, Young, Goulburn & Southern Highlands) by offering locals the chance to win vouchers at establishments who have felt the full impact of COVID-19. With one more promotions to go, be sure to keep your eye out on social media channels for your chance to win and support those local businesses.

Winter has hit, be sure to call and book your annual service, and let our technicians prepare your system ready for winter.

## What Makes Trimech stand out from the rest ?

We understand the importance of comparing quotes when making large investment decisions such as heating / cooling. We often get asked what makes Trimech stand out from the rest ? And here are a few reasons why it pays to compare not just price, but what we have to offer:

### At Trimech we service what we sell!

Trimech only offers the best quality products and will look after your system throughout the warranty term and beyond. There is no other call you need to make!  
Many of our competitors are only able to offer the sale and installation of a system, and any after sales service is redirected to the manufacturer or a third-party agent.

### We only use the best products

Daikin, Seeley and Stiebel Eltron are market leaders in their chosen fields, and Trimech is an authorised dealer for each through Southern and Central NSW. These manufacturers provide a comprehensive product offering, and we have exclusive access to specials including cash-back offers.

### Trimech are Climate Masters

Trimech are both industry leaders and Climate Masters of Seeley, which means we are the only local company which can offer an exclusive 7-year warranty. Being a Climate Master of Seeley, we have exclusive access to Australia's ONLY 7-star efficiency rated gas ducted heater, plus other exclusive

### Design and Construct Capability

We don't employ sales people to advise what equipment is required, we employ expert technical professionals experienced to quote the correct unit for your requirements, they are educated to understand the variables which determine what type of system you will. From a domestic split system, to a large commercial application, Trimech has the design of your next project covered

Trimech invests in continually upskilling our staff

All our Technicians are fully trained, most are dual qualified, and all strive to do the best quality job every time. Our Techs attend regular product training events and stay abreast of the latest technologies.

### Trimech is fully insured

Trimech is fully insured and licenced for the works we carry out. You may be surprised in asking this question of contractors, however hiring a qualified contractor is your responsibility, and it pays to check before the work is done.

### Accountability

Although we strive for perfection, admittedly sometimes things do not always go to plan! However, if we make a mistake, or something does not come up to our high standard, we will always return and rectify!

Trimech will always remain accountable for everything we do!

There's joy in watching some things grow. Your gas bill isn't one of them.

# NEWSLETTER

Over the last 3 months, our staff have been busy working away at Wyalong, Parkes, Gooloogong & Ungarie to roll out the Cooler Schools program which is a NSW Government initiative providing schools with cooler classrooms.

*From the NSW Government*

*The first round of the \$500 million **Cooler Classrooms Fund** will provide **schools** with new air conditioning units that will give students healthy and comfortable learning environments. **Schools** in areas that have an average maximum January temperature of 30 degrees or more will automatically receive air conditioning*

**Supporting our Aged Care Facilities**

**Trimech provide their support during COVID-19.**

We understand how difficult residents in Aged Care Facilities are finding the restrictions and lockdown measures during COVID-19. To make things a little easier, we are rolling out care packages to many of the aged care facilities which Trimech service. Care packs will include personal items such as spa footbaths, hair dryers, DVD's, CD players, books, boardgames, art supplies, scrap book supplies, puzzles. Plus no-frills, easy to use mobile phones and ipads, so residents can keep in contact with their loved ones during lockdown restrictions. Be sure to keep up to date on our social media pages when we present the care packs to these facilities.

## Introducing our Goulburn Team

Born and bred in Goulburn, Jason Painter is our new Service Manager and brings with him a wealth of knowledge of the Goulburn and surrounding areas.

Jason is supported by Kynan Rowley who went to school in Canowindra before locating to Goulburn and is completing his Refrigeration apprenticeship at CIT (Canberra)

Jason & Kynan will be a valuable asset to the Trimech team along with providing excellent service to our new and existing Goulburn customers.
