Trimech is your local authorised dealer for :

With COVID-19 cases continuing to pop up in many cities and areas of NSW, Trimech remain vigilant and exercise COVID safe practices.

Our commitment to our customers is paramount and we will continue to comply with all Government recommendations.

All our staff are equipped with protective equipment as well as having up to date flu vaccinations. We also carry out in-house temp screening prior to working at aged care facilities.

SUPPORTING OUR LOCAL SPORTING TEAMS

Despite the impact of COVID-19, Trimech have continued their support to local sporting clubs this season.

CONGRATULATIONS to all players on their season, and we look forward to offering our support for next year.

Is your cool room summer ready ?

Be sure to book in your service to ensure your cool room is running at

its optimal best. **Call 1300 366 173**

WHY CHOOSE A DAIKIN SPECIALIST DEALER?

Like us, our Dealers are specialists. They know the ups and downs, ins and outs of air conditioning. So their expertise ensures you get the right advice for your needs.

Daikin Specialist Dealers provide custom designed solutions for your home through an in-home quotation. Dealers will not only supply and install the best possible air conditioning solution but will also provide ongoing maintenance to ensure peak efficient performance over the life of the system.

To take the stress out of air conditioning your home, speak to a Daikin Specialist Dealer. With over 450 Specialist Dealers across Australia, our specialists are ready to help you fit the right air conditioning solution for your home.

All appointed Daikin specialist dealers are independently owned and operated businesses.

Specifically designed and engineered for the modern Australian home, Daikin has released new 18kW & 20kW Inverter Ducted systems. The trend of maximizing the home footprint on blocks has brought some challenges to the placement of air conditioning outdoor units. The new Daikin 18kW & 20kW Inverter Ducted systems have been redesigned with a 50% reduction in the depth of the outdoor unit to 320mm, which enables easy installation into narrow side access areas.

Smart device control is also available with Daikin Airbase designed for iOS and Android devices (adapter required). Homeowners can control their Daikin ducted system through their smart devices, anywhere, anytime.

Its been a busy couple of month for our team in Young with major projects underway for Southern Cross Care (Young and Harden) and due to commence installation at the Child Care facility in Young. As we move into the warmer weather the tech's will be kept busy providing 24hr breakdown repair, servicing, maintenance and commissioning to the cherry orchards as they gear up for the bumper season.

Don't leave til tomorrow what you can do today

It has been an exciting few months at Trimech as we continue to build and expand our workforce.

Welcome to the Trimech Family

Ian Watson—Goulburn

Joe Dwyer—Parkes

Sophie Parish—Young

Drew Cameron—Highlands

We are also in the early stages of engaging the next round of apprentices for the Southern Highlands & Young branch.

Trimech's Service Managers travelled to Goulburn in July for their inaugural conference.

It was a productive and informative day, Trimech look forward to implementing new strategies to continue our excellent service along with providing ongoing professional development to our staff.

Thank you to Goulburn Workers Club for hosting the day.
